

THE GARDENS CARLSBAD, CALIFORNIA

LOVING CARE FOR SENIOR CHRISTIAN SCIENTISTS

THE GARDENS IS TRULY A “HOME AWAY FROM HOME”...

for senior Christian Scientists who require sheltered care. The loving atmosphere embraces each individual because the Staff treats Guests like family members, tenderly seeing to their needs and comfort. The Gardens is also a safe environment for, while there is good space for walking, sitting in the sun, or having a

meal outside, the area is enclosed with secure perimeters.

There are six spacious bedrooms in this large home, which sits on an acre and a half of land that was formerly an avocado grove. Yes, we often include our own avocados in the tasty meals the Staff prepares according to the Guests' individual preferences.

In addition to our own delicious homemade soups and meals, there are days we will enjoy the simple pleasures of a takeout burger or a complete turkey dinner with all the fixings from a local restaurant.

We also read the Bible Lesson daily with the Guests, who sometimes like to take part in the reading or discussion. Articles from

the Christian Science periodicals and other uplifting literature are also shared. TV or video watching, working on puzzles, and walks around the grounds are always available to each Guest.

We encourage inquiries by phone or through our website and hope you will visit us. You will be warmly welcomed!

SHELTERED CARE FOR SENIOR CHRISTIAN SCIENTISTS

The Gardens is a spacious, light-filled home that sits perched on a hill above the picturesque village of Carlsbad-by-the-sea.

The wonderful ocean views and the refreshing ocean breezes are surpassed by the beauty of the love that pervades this home.
